

Max Planck Institute for Brain Research, Frankfurt

Wednesday, November 30, 2011

- 1:45 pM arrival at Max Planck Institute of Biophysics,
Max-von-Laue-Str. 3, 60438 Frankfurt am Main
- 2 – 2.30 pm Introductory talk by Erin Schuman, PhD, Director MPI Brain Research,
Department of Synaptic Plasticity Location: Lecture Hall MPI of
Biophysics, ground floor
- 2:30-2:45 Cheng-Ting Chien, PhD, Institute of Molecular Biology
(introduction for NPAS)
- 2:45-3:05 Chin-Yin Tai, PhD, Institute of Molecular Biology, “Transsynaptic
signaling by N-cadherin/beta-catenin adhesion complex”
- 3:05-3:25 Yi-Shuian Huang, PhD, Institute of Biomedical Sciences,
“Translational control in plasticity, learning and memory – the story of
CPEB3 knockout mouse”
- 3:30-3:45 short break
- 3:45-4.05 Steffi Bunse, PhD (Schuman lab)
- 4:05-4.25 Ivan Cajigas, PhD (Schuman lab)
- 4:30-5:00 Tour of the lab and facilities
